### Astrosaurs v's Cows in Action 40 QAR

Evil is afoot in the Jurassic Quadrant. Terrifying mutant dinosaurs threaten to wipe out humanity... dinosaurs with twitching claws, razor-sharp teeth and...deadly udders?!

These aren't mutants - they're MOO-tants!

But will the new friends be able to defeat their biggest, scariest, dairiest enemy yet? Or will the moo-tants destroy TWO of the bravest crime-fighting teams the universe has ever seen?

### Stop Those Monsters 40 QAR

The Wizard of Oz meets Monsters Inc in this MONSTROUSLY funny stand-alone story from bestselling author phenomenon, Steve Cole.

## Steve Cole

Steve Cole is the slightly crazy, highly frantic, millions-selling, non-stop author of many books (including a quartet of Young James Bond novels and several original Doctor Who stories). He used to edit magazines and books but prefers the job of a writer where you can wear pyjamas and eat chocolate all day. Steve just can't stop writing - if he does, strange robots appear and jostle him vigorously until he starts again. In his spare time he loves making music, reading old comics, thinking up ideas for new books and slumping in front of a warm TV.

### Invisible Inc 40 QAR

Noah's mum's new invention can zap ANYTHING into a ghost of its former self. It's still there, but you can't see it. You can't touch it.

When the sinister 'Seerblight Solutions' steal her invention, Noah is zapped - and finds he's not the first to have been turned 'invisible' through the ages. With all humankind in terrible danger, Earth's last line of defence is one you've never seen or heard of: Invisible Inc. A medieval knight. A Victorian inventor. A poetic pony. And an ordinary boy. Saving the world? THEY'LL SEE TO IT!
